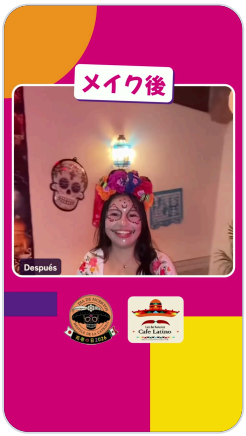
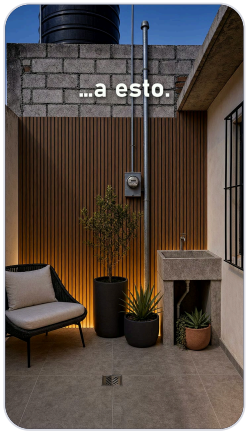
Studio Avilés

スタジオ・アビレス

Short videos for restaurants, bars, shops, hotels and tours in Japan.

A new video on your social accounts every day or every other day, with Japanese subtitles and captions. From ¥120,000 a month. Before you sign up, we make you a proposal with 3 videos of your business.





You send the material. We do the rest.

We edit your videos, add Japanese subtitles and captions, and post them for you.
Every month you get a report with your account's numbers.

How it works

1. We make you a proposal: 3 videos of your business, from material you already have.
2. If you like them, you pick a plan.
3. Every week you send new material; we edit and post, and every month you get your report.
